**Warning :**

The manufacturer Parrot S.A. and its affiliates should not be held liable towards End-Users or third parties for prejudice caused by misusage of the product, nor for usage that would be in violation of local traffic regulations and laws.

**Disclaimer :**

The information in this document is subject to change without notice and does not represent a commitment on the part of vendor. No warranty or representation, either expressed or implied, is made with respect of quality, accuracy or fitness for any particular purpose of this document. The associated documents and information may be subject to change without obligation to notify any person(s) or organization of such changes. In no event will the manufacturer be liable for direct, indirect, special, incidental or consequential damages arising out of the use or inability to use this product or documentation, even if advised of the possibility of such damages. This document contains materials protected by copyright. All rights are reserved. No part of this manual may be reproduced or transmitted in any form, by any means or for any purpose without expressed written consent. Product names appearing in this document are mentioned for identification purposes only. All trademarks, product names appearing in this document are registered property of their respective owners.

**FCC Compliance Statement :**

The device complies with part 15 of the FCC rules. Operation is subject to the following two conditions :

- 1- This device may not cause harmful interference and
- 2- This device must accept any interference received, including interference that may cause undesired operation.

Note: The manufacturer is not responsible for any radio or tv interference cause by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

**Declaration of Conformity:**

We, Parrot S.A. of 174 Quai de Jemmapes, 75010 Paris, France, declare under our sole responsibility that our product, Parrot EVOLUTION, to which this declaration relates is in conformity with appropriate standards EN300328, EN301489-1, EN 60950 following the provision of Radio Equipment and Telecommunication Equipment directive, with requirements covering EMC directive 89/336/EEC and Low Voltage directive 73/23/EEC.

**Bluetooth® :**

The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Parrot S.A is under license. Other trademarks and trade names are those of their respective owners.

**Correct Disposal of This Product ( Waste Electrical & Electronic Equipment )**

(Applicable in the European Union and other European countries with separate collection systems). This marking shown on the product or its literature, indicates that it should not be disposed with other household wastes at the end of its working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources. Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling. Business users should contact their supplier and the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

## INTRODUCTION

The **BT-E500/600** Car Kit allows you to use your mobile phone in the car with the highest level of comfort, convenience and security.

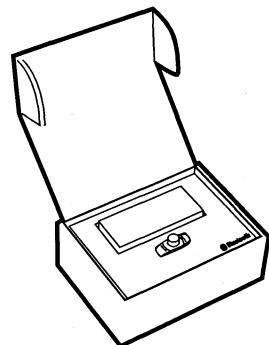

- The voice-activated "help" feature and the voice recognition capability enables you to use your phone without taking your hands off the wheel.
- Your conversation is amplified through the vehicle's audio-system speakers.

The **BT-E500/600** offers you the following features:

- Wireless Bluetooth® connection with your mobile phone
- Full duplex hands-free conversations with echo cancellation
- Background noise reduction
- Voice recognition with up to 150 voice-tags) \*
- Automatic muting of the car stereo and connection to your vehicle's speakers
- Registering of up to three mobile phones

### Kit Contents

- Keypad
- Smart harness
- Electronic control unit
- Microphone
- User guide

\* Feature only available with certain mobile phones.

## FITTING

If your BT-E500/600 is installed by a professional, skip directly to the next chapter, entitled "Getting Started".

The **BT-E500/600** comprises an electronic control unit, a microphone, a 2-key remote control and a smart harness for AVN5510/52D (BT-E500) or AVN6610 (BT-E600)<sup>\*\*</sup>.

### Electronic control unit:

Do not install the control unit near the vehicle's heater or air conditioning unit.

Protect the unit from direct exposure to sunlight. Avoid enclosing the unit inside the vehicle's trunk, fenders or behind panels that could affect the quality of the Bluetooth® link.

### Microphone:

The microphone should be pointed towards the driver and preferably fitted between the sun visor and the rear-view mirror.

### Keypad:

You should install the keypad where it can easily be reached, preferably on a flat surface that has first been cleaned.

Connect the smart harness to the connector provided on the keypad.

Make sure that the red and green LEDs light up and switch off according to the position of the key in the ignition.

**CAUTION**

### Connecting the smart harness to AVN5510/52D or AVN6610:

#### **BT-E500**

Disconnect the original harness from the connector (CN1) if it is connected. Connect the female connector of the smart harness to the CN1.

Connect the adapter harness for your vehicle to the male connector of the smart harness.

See the instruction of the bullet connector on the mute line (Pink wire).

#### **BT-E600**

Disconnect the original harness from the connectors (CN1 and 2) if it is connected. Connect the female connectors of the smart harness to the CN1 and 2.

Connect the adapter harness for your vehicle to the male connectors of the smart harness

#### **NOTE:**

<sup>\*\*</sup> Supporting headunits

#### **BT-E500**

- 1) AVN5510/52D
- 2) AVN7000/AVN5495/AVX5000/CD7100/CD5100/CD3100/CD7000/CD5000/CD4000/CD3000/CD2000 --- It does not mute audio when speakers are connected to line outputs of the headunit via external amplifiers.

#### **BT-E600**

- 1) AVN6610
- 2) AVN6600/5500/50D/20D --- It does not mute audio when speakers are connected to line outputs of the headunit via external amplifiers.

## CAUTION

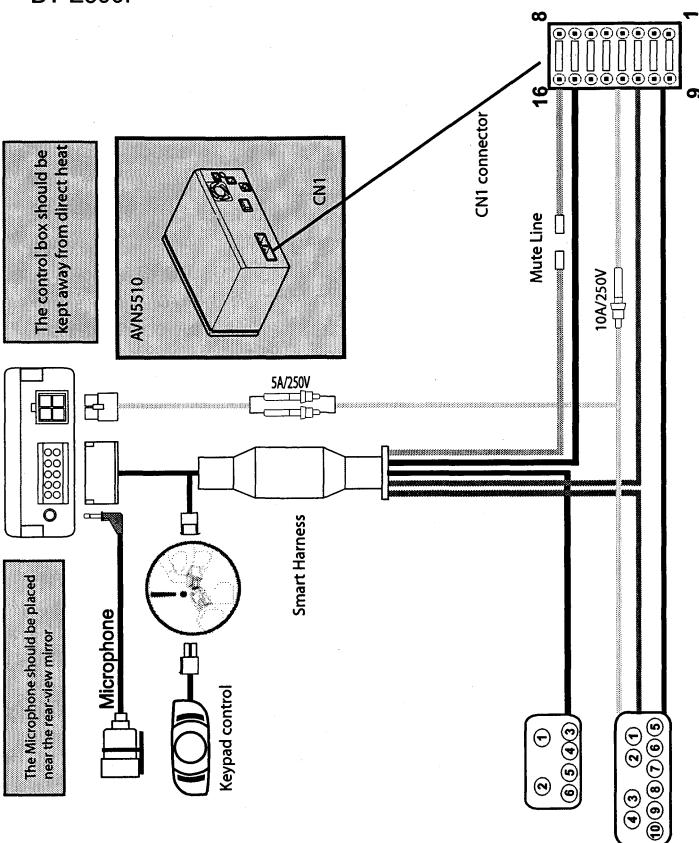

- The yellow wire of the power cable must be connected to the constant 12V supply, the red wire to the ignition 12V and the black wire to ground.
- On some vehicles, the positions of the yellow and red wires may need to be reversed. This can easily be done by reversing the fuse holders.
- Do not connect the red wire to the constant 12V supply, as you could run down the vehicle's battery.

## IMPORTANT:

Disconnect the bullet connector on the mute line (Pink wire) when you install the BT-E500 with headunits other than AVN5510/52D listed in page 7 and insulate the bullet connector with the supplied heat shrink tube. Otherwise, the headunits or/and the BT-E500 may be damaged.

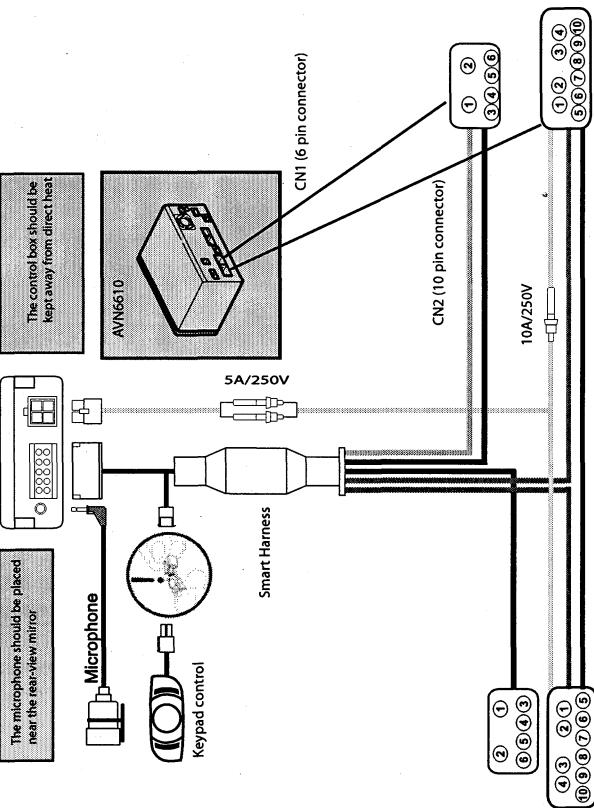

## CABLE DIAGRAM CONNECTION

BT-E500:

**CAUTION**

- The yellow wire of the power cable must be connected to the constant 12V supply, the red wire to the ignition 12V and the black wire to ground.
- On some vehicles, the positions of the yellow and red wires may need to be reversed. This can easily be done by reversing the fuse holders.
- Do not connect the red wire to the constant 12V supply, as you could run down the vehicle's battery.

**CABLE DIAGRAM CONNECTION****BT-E600:**

## GETTING STARTED

### Selecting the Language When Using for the First Time

- Press the control knob on the Keypad. The kit says "LANGUAGE" and then the name of the language currently used by the kit.
- If this language is correct, you can exit the menu by pressing the red button or go to the next menu by turning the control knob.
- If you wish to change the language, access the menu by pressing the central button or green button.
- When you turn the scroll wheel, the kit says the languages available (English, French, German, Spanish, Italian, and so on).
- When you hear the preferred language, confirm by clicking the central button or green button.
- You will hear a confirmation message.

### Adjusting the Volume When Using for the First Time

- Press the control knob on the Keypad. The kit says "LANGUAGE" and then the name of the language currently used by the kit.
- Turn the control knob until the kit says "VOLUME".
- A beep enables you to determine the current volume level.
- To increase or decrease the volume, access the menu by pressing the control knob or green button.
- Turn the control knob to the right to increase the volume or towards the left to decrease the volume. Select the proper volume by pressing the control knob or green button.
- You will hear a confirmation beep.

### Pairing

The first time that you switch the kit on, you must pair your mobile phone with the hands-free kit.

- Enable the Bluetooth mode on your mobile phone.
- Search for any peripherals.

For further information, refer to the chapter entitled "Pairing" in your mobile phone's user guide or check out our website  
<http://www.parrot.biz/usa/>

- Once detected, "Parrot EVOL" is displayed on your phone.
- Select it.
- Enter the link code (1234) when prompted by your phone and then confirm. The BT-E500/600 connects to your phone and says "PAIRING SUCCESSFUL".

All the menus are now available when you press the control knob and they are announced by the car kit when you turn the knob. Your phone is now connected to the hands-free kit and you can use it to make and receive calls.

## Making and Receiving Calls

### Making a call manually:

- Dial the number using the phone's keypad.
- The conversation automatically switches to hands-free mode. Otherwise, press the kit's green button.

### Receiving a call:

- Press the kit's green button or say "PHONE" (refer to the chapter entitled "Magic Words") to receive the call.
- Press the red button on the hands-free kit or say "HANG UP" (refer to the chapter entitled "Magic Words") if you wish to reject the call.

### Ending a call:

- Press the red button on the hands-free kit or say "HANG UP" to end the call.

### Voicemail:

You can access your voicemail functions from the hands-free kit.

- Dial your voicemail number.
- When you hear the messages, press the control knob. The kit says "0".
- Then turn the scroll wheel until you hear the required number (1, 2, 3, etc.).
- Confirm by pressing the control knob.

### Redial function\*:

- Press and hold (2 seconds) the green key on the hands-free kit to redial the last number dialed. The kit says "REDIAL".

### Volume during calls:

- Adjust the volume by turning the control knob.

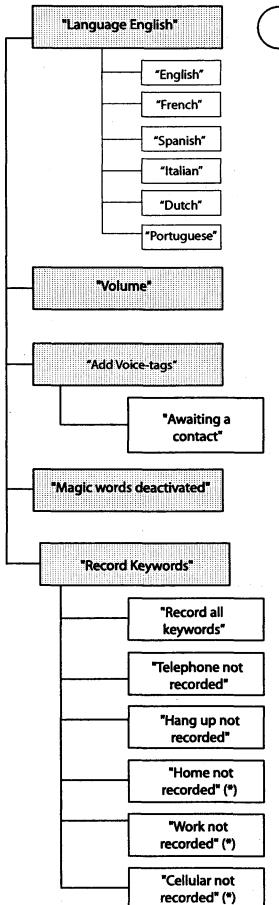

### Making a call via voice recognition \*:

- Press the green button or say "PHONE" if the magic words are activated (refer to the chapter entitled "Magic Words").
- Wait until you hear the beep.
- Say the name of the person you wish to call. You must have first recorded the voice-tags on your phone or kit (refer to the chapter entitled "Adding Voice-tags").
- If several numbers are associated with the name, say "HOME", "WORK" or "MOBILE" after the second beep.

### Discreet mode:

- During a call, if you wish to switch your call over to your mobile phone, press the green button. The kit says "DISCREET MODE".
- Press the green button again to switch back to hands-free mode.

\* This function is only available on certain phones.

#### PRESS THE SCROLL TO ACCESS THE FOLLOWING MENU

Press the green button or press the central button to validate.

Press the red button to cancel or leave the menu.

Turn the scroll to navigate through the menus.

## ACCESSING THE MENUS

### To access the kit's menus:

- Click the central button.
- The kit says "LANGUAGE" and then the name of the current language.
- When you turn the control knob, the kit says the different menus.
- You can exit the menus by pressing the red button on the keypad or by not pressing anything for more than 15 seconds.

### Changing the Language

- Press the control knob. The kit "LANGUAGE" and then the name of the current language.
- If you are happy with the language, you can exit the menu by pressing the red button or go to the next menu by turning the control knob.
- If you wish to change the language, access the menu by pressing the control knob or green button.
- When you turn the control knob, the kit announces the languages available (English, French, Spanish, Italiano, Dutch, Portuguese)
- When you hear the desired language, confirm by pressing the control knob or green button.
- You will hear a confirmation message.

### Adjusting the Volume

- Press the control knob. The kit says "LANGUAGE" and then the name of the language currently used by the kit.
- Rotate the control knob until the kit says "VOLUME".
- A beep enables you to determine the current volume level.
- To increase or decrease the volume, access the menu by pressing the control knob or green button.

- Rotate the control knob to the right to increase the volume or to the left to decrease volume. When you are happy with the level, confirm by pressing the control knob or green button.
- You will hear a confirmation beep.

### **Adding Voice-tags \***

- Press the control knob. The kit says "LANGUAGE" and then the name of the language currently used by the kit.
- Turn the scroll wheel until the kit says "ADD VOICE-TAGS".
- Access the menu by pressing the control knob or green button.
- The kit disconnects from the phone and is now ready to receive your contact names.

To send a contact name, refer to your phone's user guide or connect to the [www.parrot.biz](http://www.parrot.biz) website for details on the procedure for your phone.

For further information, refer to the chapter entitled "Pairing" in your mobile phone's user guide or check out our website

<http://www.parrot.biz/usa/>

As soon as the kit receives a contact, it gives you the instructions to be followed.

\* This function is only available on certain phones.

### **Magic Words**

Magic words are used to accept an incoming call or end a call. They also activate the voice recognition feature so you can make or take phone calls without taking your hands off the wheel.

- Press the control knob. The kit says "LANGUAGE" and then the name of the language currently used by the kit.
- Turn the control knob until the kit says "MAGIC WORDS" and the current status ("ACTIVATED" or "DEACTIVATED").
- If you are happy with the status, you can go to the next menu by turning the control knob or exit the menu by clicking the red button.
- If you wish to change the status, press the control knob or green button. The status changes. It changes from "activated" to "deactivated" or vice-versa. The kit announces the new status.
- If you choose to activate the magic words but have not yet recorded the words "PHONE" and/or "HANG UP", the kit automatically switches to record mode. The kit guides you through the process for recording the magic words.
- Once the magic words have been successfully recorded, they will be activated.

### **Recording Keywords** Phone - Hang Up - Home\* - Mobile\* - Work\*

- Press the control knob. The kit says "LANGUAGE" and then the name of the language currently used by the kit.
- Turn the control knob until the kit says "RECORD KEYWORDS". Confirm by clicking the control knob or green button.
- The kit says "RECORD ALL KEYWORDS".
- If you do not wish to record all the keywords, turn the scroll wheel to access the required keyword.

\* These words are only available on certain phones.

- If one or more keywords have already been recorded, the kit selects the first keyword that hasn't been recorded.
- Press the control knob or green button to start recording. Follow the instructions given by the kit.
- When a keyword has been successfully recorded, the kit automatically moves to the next keyword.
- When all keywords have been recorded correctly, the kit automatically activates them.
- You can exit the menu at any time by pressing the red button and record or re-record the keywords at a later stage.

## SPECIAL MENU FOR ERICSSON & SONY ERICSSON

The Main Menu consists of the following 4 sections: "Phonebook", "Parameters", "Voice recognition" and "Reset memory". You can access the menu items by selecting the desired menu item using the key and confirm by pressing "Yes".

In the phone Menu go to "Extras" for T39/T39m/R520m, or "Connect" for T68/T68m/T68i/T606/T608/T610/T616/T618/T630/Z600/Z608.

Press until "Accessories" and press on "Yes". "Parrot Menu" is displayed, click "Yes"; menu headings are displayed.

### Phonebook

#### To learn and relearn a name:

Highlight the desired name and press "Yes" to confirm.

#### Search:

Allows you to look for a name by its first letter(s). To do this, type a letter and confirm by pressing "Yes".

### Parameters

#### Volume:

This function adjusts the volume of **BT-E500/600**. Click Yes and adjust using or Press "Yes" to confirm.

#### Auto answer:

This function enables or disables automatic answering of incoming calls. Click "Yes", and then select "Enable" or "Disable".

#### User:

When several telephones are connected to **BT-E500/600**, this function identifies the telephone with priority. The phone with the highest priority is the first phone to which the kit tries to connect to.

Click Yes, "Main user?" is displayed, confirm.

#### Caller ID:

This function lets you know the identity of the caller. With this function enabled, when you receive a call, the name of the person calling you is announced if it is already stored in your phone book and corresponding voice-tag is assigned. Click Yes and select "Enable" or "Disable".

#### Multi-Tel:

This function is available for Ericsson and Sony Ericsson phones equipped only with the "Headset" profile. The affected phones are Ericsson R520, T39, T68m and the first Sony Ericsson T68i phones (software version lower than R2E). This option allows the simultaneous use of these different phones during a single session of use.

The first phone connected to the **BT-E500/600** is the main phone for the use session of the car-kit (until turned OFF).

If the option “Multi-Tel” is activated for this phone, the **BT-E500/600** will accept incoming calls from the other phones if they were previously paired with the **BT-E500/600**.

#### **Warning:**

The “Multi-Tel” function is now compatible with the T68i, T610, T616, T618, Z600 and Z608 (with specific software versions). This function is available when the “Powersave” mode is activated in the phone, i.e. “Headset” profile mode.

Once this mode is activated, the **BT-E500/600** has to identify every phone in this new mode. It is necessary to connect each phone separately with the **BT-E500/600** and restarting it between each identification.

#### **Voice recognition**

##### **Phone Number:**

Keywords for calling V-Cards (“Home”, “Work” and “Cellular”) can be accessed by clicking “Yes”. The voice recognition learning sequence is exactly the same as the one for the names.

##### **Keywords:**

Key words are “Phone” and “Hang Up”. You need to record your own key words for use with “Word-spotting” option.

##### **Word-spotting:**

If activated, enables use of keywords to make a call and to hang up.

- Activated: use keywords or buttons
- Deactivated: use buttons only

#### **Personal Dictionary:**

The key words are pre-recorded in the car kit for French language only (the language is determined by the language used by the menus of the phone).

You need to activate this option if you want to use your own recorded keywords.

#### **Reset memory**

Click “Yes”, and “Clear memory?” is displayed.

Confirm by pressing “Yes” and “Memory erasing in progress. Please wait!” - is announced. To cancel, press “No”.

It is possible to erase the memory and reset the system without using the Parrot menu. To do this, hold the red and the green buttons together.

#### **TECHNICAL SUPPORT**

- Technical Support is available to you Monday-Friday from 9a.m. – 6 p.m. Eastern time.  
For assistance, dial toll free 1-877-9 PARROT  
or (877-972-7768). You can email us at [usa\\_support@parrot.biz](mailto:usa_support@parrot.biz)
- Check out our website: [www.parrot.biz/usa/](http://www.parrot.biz/usa/) for further information.

## **Parrot One-Year Limited Warranty**

### **United States and Canada**

#### **EXCLUSIONS AND LIMITATIONS**

This Limited Warranty is provided to FTCA for the sole reason of allowing FTCA to pass this warranty to FTCA consumers who purchase Parrot products. This warranty applies only to the product manufactured by or for Parrot. Parrot will not be responsible for any other warranty FTCA passes on to consumers for non-Parrot products. This Limited Warranty does not apply to any non-Parrot product or software, even if packaged or sold with the Parrot product. Non-Parrot manufacturers, suppliers, or publishers may provide a separate warranty for their own products packaged with the Parrot product. This Limited Warranty is a consumer warranty and does not diminish or expand the warranty provided to FTCA under the Supply Agreement between FTCA and Parrot.

Parrot is not liable for any damage to or loss of any programs, data, images or other information stored on any media contained within the Parrot product, or any non-Parrot product or part not covered by this warranty. Recovery or reinstallation of programs, data, images or other information is not covered under this Limited Warranty.

This warranty does not apply: (a) to damage caused by accident, abuse, misuse, misapplication, or non-Parrot products; (b) to damage caused by service performed by anyone other than Parrot and FTCA or a Parrot and FTCA authorized service provider; (c) to a product or a part that has been modified without the written permission of Parrot; (d) if any Parrot serial number has been removed or defaced; or (e) to products sold by retailers, dealers, distributors or other sources that are not authorized by Parrot and Eclipse to sell Parrot and Eclipse products or not authorized by Parrot and Eclipse to sell products in the country where the product is shipped.

To the maximum extent permitted by law, this warranty and the remedies set forth above are exclusive and in lieu of all other warranties, remedies and conditions, whether oral or written, express or implied. Parrot specifically disclaims any and all implied warranties, including, without limitation, warranties of merchantability and fitness for a particular purpose. If Parrot cannot lawfully disclaim or exclude implied warranties under applicable law, then to the extent possible, any claims under such implied warranties shall expire upon expiration of the warranty period. No Parrot reseller, agent, or employee is authorized to make any modification, extension, or addition to this warranty.

To the maximum extent permitted by law, Parrot is not responsible for indirect, special, incidental or consequential damages resulting from any breach of warranty or condition, or under any other legal theory, including any costs of recovering or reproducing any program, data or images stored in or used with the Parrot product, or any failure to maintain the confidentiality of data stored on the product. Parrot specifically does not represent that it will be able to repair any product under this warranty or make a product exchange without risk to or loss of programs, data or images.

For consumers who have the benefit of consumer protection laws or regulations in their state, province or country of purchase or, if different, their state, province or country of residence, the benefits conferred by this warranty are in addition to all rights and remedies conveyed by such consumer protection laws and regulations. To the extent that liability under such consumer protection laws and regulations may be limited, Parrot's liability is limited, at its sole option, to replacement or repair of the product or supply of the repair service again.

## **Parrot One-Year Limited Warranty United States and Canada**

Parrot warranty obligations for this product are limited to the terms set forth below:

Parrot S.A. or the selling Parrot S.A. subsidiary ("Parrot") warrants this product against defects in materials and workmanship for a period of one (1) year from the date of original retail purchase ("Warranty Period").

If a defect arises and a valid claim is received by Parrot within the Warranty Period, at its option, Parrot will (1) replace the product with the equivalent new or refurbished product or (2) refund the purchase price of the product, or (3) repair the product.

If a defect arises and a valid claim is received by Parrot after the first three hundred and sixty five (365) days of the Warranty Period, a shipping and handling charge may apply to any repair or exchange of the product undertaken by Parrot.

Parrot warrants replacement products or parts provided under this warranty against defects in materials and workmanship from the date of the replacement or repair for ninety (90) days or for the remaining portion of the original product warranty, whichever provides longer coverage for you. When a product or part is exchanged, any replacement item becomes your property and the replaced item becomes Parrot property. When a refund is given, your product becomes Parrot property.

Please complete and mail the Warranty Registration attached. 

### **OBTAINING WARRANTY SERVICE**

Online help resources are available at [www.parrot.com](http://www.parrot.com)

To request warranty service

E-mail: [usa\\_support@parrot.biz](mailto:usa_support@parrot.biz)

Or call: **1-877-9PARROT**

You will need to provide proof of purchase information (showing date purchase, location of sale and the product item serial number) when submitting a request for warranty service.

Note: Before you deliver your product for warranty service, it is your responsibility to backup all data, including all software programs, photographic images, phone books, etc. You will be responsible for reinstalling all such data and other electronic files. Data recovery is not included in the warranty service and Parrot is not responsible for data that may be lost or damaged during transit or a repair. Parrot and Fujitsu Corporation of America (FTCA) are not responsible for any installation (including reinstallation) and removal of the product.
